Vaccinate your kids people... The pictures below show you exactly why... Our poor baby boy who is too young to be immunised has caught the chicken pox... It has almost been a week since they showed up... Today he was admitted to Ipswich Hospital with a secondary infection... Kaliah and myself also have the chicken pox fortunately since Kaliah hasn't long been immunised she has a few spots and blisters but is well in herself... Adult chicken pox is so horrible and painful I would much rather give birth with no pain relief... They have just given me some medication also to help with my symptoms...

Bottom line if you don't vaccinate your kids your a bloody idiot... Think about the risk you are putting on other helpless kids that are too young or who actually can't be vaccinated!

CANCER DE LENGUA

Definición

Este tipo de cáncer se agrupa con otros tipos de cáncer de boca:

- Labios
- Paladar
- Revestimiento de las mejillas
- Suelo de la boca (parte de la boca situada debajo de la parte delantera de la lengua)
- Encías

Figure 1: A - At presentation; B - One months after therapy; C - Six months after the therapy; D - One year after therapy

But swollen lymph nodes in your armpit, neck and groin that don't go away after a few months and haven't been accompanied by signs of infection could be lymphoma, which tends to occur at a young age, says Dr. Daly. Sores in the mouth could be related to oral oral Especially if you smoke, drink, or you have hpvÁ e á ,~ "all the factors that increase the risk, says Dr. Daly. Related: 5 incredible things the human body can make a symptom lasted from 3 to 6 months or grow significantly in Gravity, it's time to call your DocÁ e á ,~ "even if you probably want to take some signs, like bleeding, checked out before. And a skin tag that bleeds could be skin cancer. If you linger for 3 months or more, it's time to schedule an appointment. High: the 3 best exercises to prevent tumors from pressing nerves, organs or bones can cause pain. If you are serious, sudden, or you have symptoms of shock "as a quick pulse or a drop in blood pressure ... Head to ER.9. The wounds that did not cure that skin cancers appear in this way. Look at 8 reasons why you can't stop coughing.) 3. Furthermore, if you have a serious abdominal pain that didn't leave, Á e á ,~ "What surely should not be ignored Á e á ,~" Dr. iheme says. As with oral cancer, smoking, drinking and the HPV can increase the risk. See what seems like skin cancer. Persistent cough or ruceasencoughs that does not go away could report lung cancer, especially if you are a heavy smoker. This when tumors release compounds that change your metabolism into complex ways, reducing the capacity of your body to use proteins á e
