

2017 chevy trax repair manual

In a crash, this applies force to the strong pelvic bones and you would be less likely to slide under the lap belt. Make sure the safety belts and safety belt buckles are not trapped under the seat cushion and are properly positioned for use. Allow the webbing to dry. You can move the height adjuster up by pushing up on the shoulder belt guide. If a belt is torn or frayed, have it replaced immediately. For pregnant women, as for anyone, the key to making safety belts effective is wearing them properly. To read how, seeOlder Children 079 or Infants and Young Children 081. Q: If my vehicle has airbags, why should I have to wear safety belts? Keep safety belts clean and dry. If the belt is not long enough, see Safety Belt Extender 066. The person wearing the belt could be seriously injured. But the safety belt assemblies that were used during any crash may have been stressed or damaged. Statistics show that unbelted people are hurt more often in crashes than those who are wearing safety belts. Sitting on the safety belt can damage the webbing and hardware. For frontal airbags, the word AIRBAG is on the center of the steering wheel for the driver and on the instrument panel for the front outboard passenger. Seat belts This section of the manual describes how to properly use seat belts. If you slid under it, the belt would apply force to your abdomen. For knee airbags, the word AIRBAG is located at the bottom of the dashboard. See When Should an Airbag Inflate? Wear the shoulder belt over the and on the chest. Seatbelt pretensioners for outboard front occupants. An eyelash near the backrest lever retracts when the backrest is locked in place. Do not sit on the outer seat belt when entering or exiting the vehicle or at any time while sitting on the seat. In addition, in almost every state and province in Canada, the use of seat belts is required by law. A side impact airbag mounted on the seat for the outboard front passenger. Don't let it twist. There is more time to stop because you stop at a longer distance and, when used correctly, your stronger bones absorb the forces of your seatbelts. Wearing Seat Belts During Pregnancy Seat belts work for everyone, including pregnant women. Parts may need to be replaced to ensure the proper functioning of the system. A roof airbag for the driver and the passenger seated right behind the driver. This could cause serious or even fatal injuries. To return the backrest to the normal seating position: Seatbelt clip on the shoulder down, press the release button and move the height adjuster to the desired position. There is an airbag preparation light on the instrument cluster, which shows the airbag symbol. Incorrect adjustment of the seatbelt height could reduce the effectiveness of the seatbelt in an accident. The Chevrolet Trax is also limited in its transmission offering only a 6-speed automatic to U.S. buyers, although they will be able to choose The front traction or the four motor wheels. For ceilingrail airbags, the word airbag is on the roof or on the coating. See Airbag Readiness Light 0114 For more information. If the shoulder part of a passenger belt is removed until the end, the blocking device of the child retention system can be activated. It is extremely dangerous to travel in a loading area, inside or outside a vehicle. Vehicle 64 of 373chevrolet TRAX Owner's Manual (gna-localizing-u.s./canada/mexico- 10 122 735) - 2017 - CRC - 7.12.16 Seating and Restrictions 63 It is very important that all occupants buckle. {NOT BLOCK WARNING OR DYE SAFETY BELT. If you are wondering what you have to offer the vehicle, take a look at the appropriate year owner's manual from the list on the left. The U.S. market had only one engine option, a 1.4-litre turbo which meant that the SUV was not suitable to tow. Then pull the belt through you more slowly. The car is a subcompact crossover SUV that has many of the positives of owning an SUV while remaining inexpensive to drive, insure and repair. Lap-shoulder belt All seating positions in the vehicle have a back shoulder belt. The driver should sit as positively as possible while maintaining control of the vehicle. The driver's front airbag is located in the centre of the steering wheel. Follow the rules for the protection of all. Production of Chevrolet Trax began in 2012 and shares its platform with the Aveo model by the same manufacturer. This vehicle has indicators as a reminder to fasten seat belts. Lift the backrest and pussy of the seat, if you wish. Among the facial elevation changes were a random adjustment options that now included badges, such as: Do you want more? Push the latch plate on the thuckle until it clicks. It also describes some things you shouldn't do with seat belts. For side impact airbags mounted on the seat, the word airbags mounted on the seat, the word airbags are only supplementary systems; So they work with Safety, not in place. Page 62 of 373Chevrolet Trax Owner's Manual (GNA-LOCALIZING-U.S./canada/mexico- 10122735) - 2017 - CRC - 7/12/16 Seats and Restrictions 61 The Central Rear Safety Belt can be blocked when lifting the backrest. A front airbag for the front passenger off-board. Ask your dealer to inspect or replace the seat belt assemblies. Page 69 of 373Chevrolet TRAX TRAX Owner's Manual 10 122 735) â 2017 â crc â 7.12.16 68 Seats and Restrictions Airbag System The vehicle is equipped with the following airbags: A front airbag for the driver. Seatbelts and front airbags for outboard passengers are most effective when you are sitting well on your back and upright in the seat with both feet on the ground. Lower the armrest to access the cup holders. Everyone in the vehicle must wear the seat belt properly, regardless of whether or not there is an airbag for that person. 5. Adjust the seat, if the seat is adjustable, so that you can sit upright. A side impact airbag mounted on the driver's seat. In addition, anyone who is not fastened can hit other passengers in the vehicle. Place the outboard seatbelt on the seatbelt clip (if fitted) on the side edge of the vehicle. After lifting the backrest, always check that the seat belts are correctly oriented and secured, and that they are not twisted. Sit upright and always keep your feet on the ground in front of you. A pregnant woman should wear a lap belt and the part of her lap should be worn as low as possible, below the rounding, throughout the pregnancy. Look for any other loose or damaged parts of the seatbelt system that may prevent a seatbelt system that may prevent a seatbelt system that may prevent a seatbelt system from working properly. In an accident, if you or your passengers are not wearing seat belts. Although the seatbelt pretensioners are not visible, they are part of the seatbelt set. Side impact airbags mounted on the second row of outboard passengers. If the vehicle stops you. Go to your distributor have it repaired. The cinturA ³ should not be near the neck, but without coming into contact with A[©]. If this happens, pull the safety cintur³ firmly to unlock the strap, then remove it. Seat belt pretensioners can also help tighten the seat belts in the event of a side collision³ or overturning. It doesn't feel Close to any airbag, as he would do if he is sitting on the edge of the seat or leaning forward. In addition, air bags are not designed to inflate each shock. After configuring the adjuster in the desired position. It to move it without pressing the release button to ensure that it has been blocked in its position. If the pretensioners and probably other parts of the vehicle safety belt system should be replaced. 2. Here you are the most important things you should know about the Airbag System: {Warning can be seriously injured or dead in an accident if you are not using your safety belt, even with airbags. Clean safety belt and rinse only with soft soap and warm water. Repeat steps 1: 4 for the other recession and seat cushion, if necessary. Safety strap care Keep the belts clean and dry. If a child is going to ride in the vehicle, see the children's greater 079 orinfants and children 081. Like the necessary exterior hard surfaces and safety straps can be cleaned slightly with soft soap and Water. The extender has been designed for adults. A knee air bag for the driver. The system checks the airbag electrical system for malfunction. Never allow the lap or shoulder belt to be released or twisted.
